Introduction

Welcome to your Program Pathway for the pursuit of Safe Participant Pioneering

This Program Pathway allows you to be clear on what you required to do to complete the requirements to achieve completion of Program Pathway.

The Program Portfolio is broken into 3 parts

Part 1 – Pre-Program Evidence the things you have to complete before you attend the face to face part of the program

Part 2 – On Program Evidence items are where you record the skills and knowledge you develop on the Face to Face part of the Program.

Part 3 – Post Program Evidence Items

As you complete the items please capture or connect them to this portfolio type document. Once you have completed all of the evidence items in the Program please return the complete Program Pathway Portfolio to the Training Section of your Branch. A review of your completed Portfolio will be undertaken, and once you have been deemed competent you will be recognised as a Safe Participant.

Outcomes

The participant can demonstrate an understanding of how to participate in a pioneering activity and can recognise possible hazards that may occur and where possible prevent injury to themselves or others also participating. This Program does not link to Units of Competency
